

Alpha Research & Technology, Inc.
"Developing & Integrating Cutting Edge Technologies
for Mission Critical Airborne C4I Systems"

Careers

ART competes in a technically challenging field that is unique in the respect that the on-time delivery of a quality product has a direct impact on the successful accomplishment of many nationally important DoD and other Federal agency missions. Our products are cutting edge solutions to real-world, real-time customer needs and reflect the pride and quality of every employee's efforts.

ART is an equal opportunity employer in every respect. We pride ourselves in offering equal opportunities to every employee in the areas of advancement, training, assignment to challenging projects, travel, and others. We are committed to offering a work place that promotes teamwork, creative and multi-disciplined problem solving, respect, integrity, and fun. ART also offers many benefits to their employees.

Periodically, we will post job opportunities to this site. If you are interested in one of the posted positions, or just interested in future openings, you may email your resume to the HR email address or fax it to (916) 431-9360, ATTN: HR Department.
