

**Alpha Research & Technology, Inc.**  
“Developing & Integrating Cutting Edge Technologies  
for Mission Critical Airborne C4I Systems”

## *Home*

**WELCOME TO ALPHA RESEARCH AND TECHNOLOGY, INC.**

ART has been recognized as a leader in the field of designing, manufacturing, testing, integrating, installing, and FAA-certifying airborne, mission critical, DoD Command, Control, Communications, Computers, Intelligence, Surveillance, Reconnaissance (C4ISR) systems. Building on these successes, we have expanded our customer base to other US Federal Agencies, grown our product line, and expanded our capabilities into fully integrating complete mission systems.

The ART Team possesses an unwavering focus on the end user's needs – we are totally committed to exceeding our customer's expectations.
